Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not identify the mailing or post office address of each inventor. A mailing or post office address is an address at which an inventor customarily receives his or her mail and may be either a home or business address. The mailing or post office address should include the ZIP Code designation. The mailing or post office address may be provided in an application data sheet or a supplemental oath or declaration. See 37 CFR 1.63(c) and 37 CFR 1.76.

The post office address of all the inventors has been omitted.

Specification

2. The disclosure is objected to because of the following informalities: in the specification on pages 6, 9, and 10, in the formula for silane $R^E_h(\text{SiOR}^A)_{4-h}$, applicant states that R^E is an oxirane or an epoxide containing radical having from one to forty carbon atoms, however, by definition, an epoxide contains at least two carbon radicals in the epoxide ring.

Appropriate correction is required.

Double Patenting

3. Applicant is advised that should claim 11 be found allowable, claim 19 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing

Art Unit: 1712

one claim to object to the other as being a substantial duplicate of the allowed claim.

See MPEP § 706.03(k). The only difference between claims 11 and 19 is the use of the word "paper" before release in the preamble of the claim 19. The rest of the claims are identical. Since the components of the composition are the same in both claims, it is the examiner's position that there is no structural difference between the compositions of claims 11 and 19.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-17, 19, 21-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 11, 19, and 22, in the formula for silane $R^E_h(\text{SiOR}^A)_{4-h}$, applicant states that R^E is an oxirane or an epoxide containing radical having from one to forty carbon atoms, however, by definition, an epoxide contains at least two carbon radicals in the epoxide ring.

Response to Amendment

6. The previous objections to the specification and claims, as well as the previous rejections under 35 U.S.C. 112, 2nd paragraph have been withdrawn in light of applicant's amendments to the specification and claims. The warning regarding claims

11 and 19 as well as the comments regarding the declaration set forth in the previous office action are continued as applicant has not addressed these issues in the filed response. The examiner apologizes for not bringing to applicant's attention the issues that gave rise to the above objection and rejection earlier.

Allowable Subject Matter

7. Claims 1-17, and 21-24 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action, with the caveat that claim 19 would be objected to if claim 11 were to be found allowable.

Conclusion

8. It is noted that this rejection is not made final because the new grounds of rejection set forth above did not arise from applicant's amendments to the claims and specification.
